— Give Your Child a Key to Unlock the Door of Science

Children are full of curiosity about everything in the world: the delicate veins of leaves, the unique edges of sand grains, the intricate patterns on coins... Now, our company launches the A36.5048 Handheld Digital Microscope to satisfy children's curiosity, making the microscopic world within reach with every detail clearly visible!

? HD Large Screen – No Eye Strain!

3-inch HD LCD screen for more comfortable eye protection; 10-800x flexible zoom to capture microscopic details sharply!

? Lightweight & Portable – Explore Anytime Anywhere

Compact body, easy for children to hold with one hand. Whether observing daily items at home or exploring flowers, plants and insects outdoors, curiosity knows no bounds!

? Simple Operation, Stimulate Independent Learning

- One-click photo/video recording
- Manual focus knob
- Adjustable LED brightness

? Long Battery Life – Keep Exploring!

Up to 12 hours of single-use battery life, sufficient for a full day of science experiments!

? Perfect for:

>Family Science Enlightenment: Observe petals, ants, hair, salt grains... Ignite children's interest in natural science

>Classroom Auxiliary Teaching: Teachers can quickly demonstrate microscopic structures to enhance interactivity

>STEAM Education Projects: Support photo recording and comparative analysis to cultivate scientific thinking

>Parent-Child Interaction Time: "Treasure hunt" in the microscopic world with children and share the joy of exploration

? Inspire the Scientist Within

The A36.5048 is never just a tool for exploring the microscopic world, but a silent scientific mentor accompanying children's growth. With intuitive and easy-to-understand operation, interesting observation experience and safe and reliable design, it frees abstract "science" from textbooks and turns it into tangible perceptions that children can reach.

About Opto-Edu

Opto-Edu is a leading Chinese manufacturer of educational optical instruments, specializing in the development of microscopes, telescopes, and laboratory equipment for global markets. With products exported to more than 80 countries, Opto-Edu has earned international trust through innovative design, consistent quality, and localized customer support.
